Constantly great time with publication Diana, Herself: An Allegory Of Awakening (Bewilderment Chronicles) By Martha Beck, always good time with cash to spend!

Review

“This book is everything. It’s a romp, a fable, a myth, an inspiration, a teachable moment, a true hero’s journey, a cautionary tale, and a fairy tale for an entirely new (or rather, ANCIENT) species of fairies. It’s rare that so much wisdom can be found wrapped up in such comedy, such kindness, such lightness of touch. It’s a perfect book. I want every woman I know to read it. This is storytelling at its very best, and also at its most important.”

-- ELIZABETH GILBERT, bestselling author of *Eat, Pray, Love* and *Big Magic*

“What I love about this book is that you think you’re reading a grand adventure story, but by the end of the book you realize you’ve been abducted by the genius Martha Beck who has given you a soul transfusion—you’re more awake, more inspired, deepened, broadened, uplifted. I was amazed that a book can be so funny and so enlightening at the same time. Now I have to read it again, because I know that hiding within the book’s oddest twists and turns, there is even more spiritual gold to be mined. Martha Beck has written *The Wizard of Oz* for our times, but this time, the story comes with instructions on how each one of us can find our way home.”

--ELIZABETH LESSER, Cofounder of Omega Institute, author of the New York Times bestseller, *Broken Open and Marrow: A Love Story*

“Once in a triple blue moon, a book comes along that combines riveting narrative, delightful characters, and timeless spiritual wisdom: In *Diana, Herself*, Martha Beck has written such a story. Beck takes readers on an unforgettable, magical journey filled with deep truths that resonate, above all, in the heart. Who knew enlightenment could be so much fun?”

-- SUSAN CASEY, author of *The Wave*, *The Devil’s Teeth*, and *Voices in the Ocean*

Even though this book is fiction and not self-help or memoir, Martha does not hold back her clear instructions for living with greater peace. I devoured *Diana, Herself* in the span of a few days; I daresay it is the most powerful book I’ve ever read for furthering my own personal and spiritual growth.

--CHRISTINE CARTER, Ph.D., Author of *The Sweet Spot: How to find your groove at home and work*

About the Author

MARTHA BECK is a life coach and bestselling memoir and self-help author. Her books include *Expecting Adam*, *Finding Your Own North Star*, *Steering By Starlight*, and *Finding Your Way in a Wild New World*. You could discover this [Diana, Herself: An Allegory Of Awakening \(Bewilderment Chronicles\) By Martha Beck](#) lodge this internet site by linking to the internet.

DIANA, HERSELF: AN ALLEGORY OF AWAKENING (BEWILDERMENT CHRONICLES) BY MARTHA BECK PDF

Maybe, once or twice in your life, you've experienced a surge of destiny so strong it made you believe in miracles.

Such bolts from the blue seem to hit when weariness or ill fortune have plowed through the ground of reason, breaking it up so magic can take root. What follows is so perfect that to call it accidental defies belief. Diana Archer is an absolutely—mathematically!—average woman, living an unremarkable life, when destiny reaches her. Without quite knowing how or why, she finds herself leaving everything familiar and moving into a world where miracles are commonplace, where her supposed flaws become her salvation, and where each person's story is everyone's.

In this exuberant allegory, bestselling memoir and self-help author Martha Beck takes readers into the wild parts of the world and the human psyche. The story of Diana, Herself helps every reader chart a course for awakening to greater joy, adventure, and purpose.

It feels almost magical to Diana Archer—out-of-work store clerk, former foster child, and bearer of multiple psychological diagnoses—when she's pulled into the orbit of world-famous life coach and reality TV star Roy Richards. Together, Diana and Roy embark on the latest in his series of “conquests,” surviving a month in California's trackless Sierras Oscuras National Forest.

It's in the forest that their quest devolves into disaster—and the real magic begins. Lost, alone, and dying, Diana is taken under the trotter of a benevolent spirit animal (or is it a projection of her perennially troubled mind?) who promises to take her home. But “home” proves to be a place much more mysterious than Los Angeles. Awakening is the goal, Diana learns, and bewilderment is the method.

As the first volume of the three-part “Bewilderment Chronicles” proceeds, Diana will undergo a transformation that will change her irrevocably, and just possibly save the world. Let the enchantment begin.

This book changes everything.

By Jill Farmer

I have never read a piece of fiction more than once. I've held onto beloved books with the dreamy intention of diving in again so I could float back to the place they took me. But, I've never actually gotten around to doing that.

I read "*Diana Herself...*" twice in the first 72 hours I owned it.

A 3rd reading may inspire me to live in Diana's forest for good.

I could never understand why my girls read the Harry Potter books over and over. They said it was because JK Rowling's imagination forever changed the way they perceived reality. As 3rd graders, they would look out the window and ponder, "How would JK Rowling describe this tree? I wonder what kind of magical powers it would possess?"

As they've gotten older, each reading revealed a deeper message about their own inner wisdom.

"*Diana, Herself...*" has done that for me.

And, it will do it for my daughters (I just bought them copies).

It will do it for you, too.

I'll be waiting in line at the bookstore at midnight for Martha Beck's next novel in this trilogy to be released. She truly hit the bullseye with this amazing story.

You will be changed

By Betsy Kay

First: Let me tell you I couldn't put it down and am buying multiple copies for... Everyone. Next: I will warn you that this is not a "normal" book! I don't think the author would mind my saying that. Well I know she wouldn't! It is written in something that appears to be English but is sort of oddly discomfiting... "she's writing in 'animal' or something" is how my articulate, shaman friend Kimberly pointed this out to me. And the tale is disturbing in parts. Triggering, even possibly, as they like to say nowadays. But it will not leave you. And you will be changed. And you will be glad for it.

5 of 5 people found the following review helpful.

Slow beginning, perhaps necessarily, but really glad I read this book.

By Jill S.

A story that started off a bit fragmented and I almost bailed about three times in the first quarter of the book, but I really really like Martha Beck's work so I decided to stick it out. I was really really glad I did. I read it in chunks, taking time to absorb some of the things presented before moving on. I haven't read all her books, but she is terrifically smart and eloquent and has been through a lot of crap in life and keeps finding a way both to overcome challenges, or at least survive them, and then have the courage to share with readers. I both admire that and find it useful to examine her viewpoints.
