Excited Naked Female

By Michael Joy

This story is the best written piece in this category since How Sarah Became a Nudist. It starts out simple enough, a girl goes to a beach in a bikini thinking the most daring she is going to be today is that she's wearign a skimpy thong that shows her butt and she has no back-up, no clothes, no towel. For two chapters it's tame beach bikini fun, and then she decides to try skinny-dipping and leave her bikini under a rock. Then it gets washed away and she is stranded trying to find her way home totally nude. It impressed me because unlike the other erotica I read, this did not get bogged down in sexuality or masturbation and instead focused on the real humorous adventure of a girl stuck naked and trying to get home without getting caught. In fact there's an interesting part where she ends up in a sex shop and punishes the owner for selling kiddie porn by burning it down, she's actually kind of a hero at that point. The whole thing remains somewhat plausible and realistic and fun without being any dirtier than it needs to be, and that is refereshing when most of the stories just seem to indulge in vulgarities. it's just really nice to have some light hearted fun.

An interesting read for this ENF fan

By George Yeldell

I really enjoyed this story. I'm looking forward to this author either continuing this story or making a series of ENF stories in the future.

Not great, but has its moments

By RRChelsey

This book has its moments. The story of a girl who loses her swimsuit in the ocean and has to negotiate her way home naked is fairly well written and gave me a few chuckles. I especially liked the part where she tries to hide in plain sight by standing still and pretending to be a nude statue at a museum. However, the plot is slow going for the first couple of chapters, and the girl's criminal activity is somewhat offputting. I can excuse the petty thefts in her dire situation. But arson crosses the line for me, even if the intended target is a

bad guy. That's a felony that risks other innocent lives. At that point, I'm no longer sympathetic to the girl.

There are better ENF stories out there. I'd recommend "Perfect Streak" and "Naked in School: Photoshoot" in that order for those who are looking for a fun read about girls who lose their clothes in public. Then, if you still want more of the same genre, this one isn't bad.
