Great textbook

By K. Saucedo

I purchased this book a few months ago, as a means of self studying for the AP Environmental Science exam. So far, this book has proved to be excellent in successfully learning the material, and emphasizes the everlasting dispute between science and values. I initially wanted to only take this test for some easy college credit; however, Environmental Science has now become a very interesting subject for me thanks to this amazing book. Through great pictures and maps, the reader can more thoroughly comprehend the material. I definitely give this book 5 stars, as it is greatly written and has made me far more interested in the subject.

Good Book!

By Ivanna Cacho

Environmental Science is not my thing, but the book is great.

Helps you understand the material a lot because it's really easy to read.

I recommend it!

The Book Came in Decent Condition

By Casharri

I just rented it for the course I'm taking in undergrad. Definitely served it's purpose for me.
