I read the other book in this author's series and found it extremely entertaining and informative. And I was not disappointed at all with this one. A recommend.

The worst.

By kory13

Is this even a book? It's so chock full of spelling mistakes, grammatical errors and poor sentence structure that it's almost impossible to understand. As for the content, a twelve year old could have come up with more insight. An absolute waste of money and I feel like a fool for paying anything for it. My bad. I'll pay more attention next time.
