Simply web page by web page depending on the moment that you have to read Fundamentals Of Female Dynamics: The Practical Handbook To Attracting Women By Mr. Michael Knight

FUNDAMENTALS OF FEMALE DYNAMICS: THE PRACTICAL HANDBOOK TO ATTRACTING WOMEN BY MR. MICHAEL KNIGHT PDF

A mature guide to attraction that is neither insulting to women nor to the intelligence of its readers. While written for a general audience, this text caters especially to those with technical backgrounds. Logically minded individuals, such as engineers and computer programmers, are generally among the most befuddled when it comes to attracting women. While attraction and seduction are more of an art than a science, this text breaks down and delineates the most critical and fundamental concepts. Inside this book you will not find pick-up lines, routines, gimmicks, tricks or manipulative mind games. While other resources provide surface level advice, this book tackles attraction on a first principles basis. By understanding how attraction works on the deepest level, you will learn to address the causes of your issues rather than just how to cover up the symptoms. That is, you will learn to become an attractive man, not just how to act like one.

I like how the principles in the book are applicable in ...

By Amazon Customer

In short: A very worthwhile read.

In its general philosophy, this book is similar to Mark Manson's "Models," while being more concise and containing far less expletives. This book is also perhaps skewed towards a slightly more educated audience.

I appreciated that this book does not try to promote some warped ideology or tell you that you must start living a specific lifestyle. The author uses a mature, straight forward tone for the purpose of educating, not indoctrinating. Instead of telling you how you must specifically act or who you must become, it describes the mentality that you must have to develop your unique self into a person who is also successful with women. That being said, it still explains why certain actions and behaviors that you may be exhibiting are causing women to find you unattractive.

I like how the principles in the book are applicable in all environments, and thus don't require me to spend all my time in bars and nightclubs.

If you desire a "step-by-step" approach to attraction where you want every little detail of every possible

situation spelled out for you, then I would not recommend this book. Most of all the other books and materials on attraction are like this, and you should not have trouble finding one better suited for you. However, if you want to learn what is really at the foundation of all attraction from an author who is clearly knowledgeable as well as relatable, then this is the book for you.

Emotional perspective

By Amazon Customer

Very useful and practical guide for resetting your psychology of seeing the world in the first place and communicating with people in general. Scientific approach which on the other hand can be understood by large amount of people, if they are motivated enough. I feel as a different person after experiencing this book, I started thinking what am I sub-communicating to women much much more. A whole different perspective opened in front of my eyes.

Great Value

By Bostjan

The author has a deep understanding of human nature and social dynamics. The book teaches you critical life principles through the medium of learning to become better with women. Direct and concise, started to applying the principles straight away, thanks!
