I am disappointed by the content

By Amazon Customer

I was really looking forward to buying this for a long time. I kept going back and forth between National Geographic and DK encyclopedias for my children to use as reference books.

I am disappointed by the content. We liked the pictures but the content is so minimal and dry that my children just can't get much out of it at 6 and 4 years old. It feels like an over priced intro to the world.

I wouldn't have bought it if I saw it in person.

We love the entire collection

By Glo

We love the entire collection. My kids are such big fans of these books and we, the parents, are also learning so many things we didn't know before. The cool thing about this collection is that it entices the little ones to ask more questions. Hence every book in the collection is a great starting point for more research on particular topics that they are interested in.
