Great for MA certification exam prep!

By Babble65

My school provides us the e-book for this textbook. Since I'll be using it throughout my entire MA program, I decided to order the hard copy. Fast deliver, great condition for a used book. I have had no problem comprehending the text. It is sorted out nicely, and addresses all the areas that will be on the national certification exam. I would love it were spiral-bound because it is THICK, but I think it is a great textbook for students who are wanting to be become CMAs.
