Most helpful customer reviews

0 of 0 people found the following review helpful.

it contains some really useful info in our age of "I'll google that

By Spenser Calderin

It's a textbook, not a thriller. So the mood, plot questions were way out of place. Also while this is basically an old home ec book, it contains some really useful info in our age of "I'll google that." Things people - male and female should know how to do.
