STAY POOR: THE IDEA OF MAKING MONEY BY SECRET ENTOURAGE PDF

"We often read stories in the news about millionaires who became successful, but we don't often get an in-depth look into how he/she became that way. Secret Entourage takes the time to interview these successful people and gives them a chance to explain in detail about how they became the way they are."- Allen Wong / RegoApps Millionaire"

I would say 90% of households live paycheck to paycheck. When you do that, you totally kill the opportunity which could be that one big thing you can run with. You don't have that opportunity because you don't have the ability to harness it."- Barry Doyle / Exotic Clutch Technologies

They say money makes money, but we say people make money. There is a simple fact that people that know how to make money often think alike, they often identify opportunities and know how to act when positioned for success. This success is attributed to the mindset they share and their ability to unlock their full potential.

Today we share with you in detail how you can choose a similar fate of success by understanding your full potential and becoming the driver of your life. Many of you have read all the amazing success stories of some of the people who contributed some important parts of this mini series of financial books. Our circumstance is no different than anyone else's; we are not born into money and are not given opportunities that only a select few receive. We started like 90% of today's society with very little to nothing, but chose where we ended up. Before you can make real money, you must understand "what making money" really means. This is the no fluff, no bullshit approach to what money really is.

We designed the lifestyle we wanted through aligning our goals to it and became the driver of our lives taking ourselves into the world we once saw as a dream or believed we deserved. You too have that same opportunity but now no longer have to go through all the trials and errors to attain the knowledge.

This book is not going to tell you to find investors, spend money, or even go buy real estate. This book is going to change the way you look at everything around you, it will give you an opportunity to identify and act on opportunities but

more importantly teach you how to be fearless in your quest for wealth. It will also open up your appetite for financial education and force you to seek further information about various ways to cycle money.

Staying

Poor is a choice but Stay Poor will show you that success and wealth is more about mindset than anything else. More importantly it will give you the missing key to your monetary success and will actually ask you to do something about it, because building a foundation for wealth is the first step to getting there.

Very simple, powerful and straight to the point...

By RickBme

It's amazing how such a small book packs such a big punch. At least for those of us still searching for our true purpose in life. The ideas in this book are straight to the core. The author obviously speaks from life experiences and not from fictional ideas just to make a quick buck. I've been searching for sometime for this kind of motivation and ideas on how to become more successful. The whole concept of the book is a wake up call, makes you think and rethink your current strategies. Look forward to doing some more reading, will be following Secret Entourage closely, their content is definitely some of the best I've seen in quite sometime.

Read it at one sitting...

By PureNRG

I really liked the ideas this book puts out there, it talks directly about people's perspectives on making it and the issues that we all face - mainly with our own ways of finding excuses when we try to achieve something. Reading it at one sitting def made an impact on me, I'm already keen to the ideas in this book, but it still inspired me, specially because it verbalized everything I already know but wasn't necessarily thinking about or doing anything about. Additionally what I learned is to move forward, which we all know how to do but we can always use a push and a shove in the right direction - reading this has made me just a little more focused on what I need to do... it's def. a book that causes self reflection, which can bring about a lot of good things.

My favorite quote from the book "Instant Gratification = Arrogance + Ignorance"!

Learned about my fears

By The Razor

I'll begin by saying that I never leave reviews like this unless I feel the need to based on quality of product.

I thought I was fearless. I picked up this book for its punch line of "changing your mindset" because I always believed that success starts with tweaking the way you look at everything. To my surprise this book had taught me much more than was anticipated. The book made me realize that even though I thought I was

fearless, I was plagued everyday by fears I had not recognized as fears! I suggest you pick up the book even if only for its ability to allow you to analyze yourself and identify the fears that are holding you back.
