Seems like Leo Scott has it all: looks, brains, and athletic talent. He's captain of his high school swim team with a bright future in college and beyond. But Leo has secrets. His mother's crippling car accident has devastated his family and left Leo to deal with his father's abuse, battered and alone. Leo's girlfriend Audrey Rose is poised for her own share of success. As one of Florida's top high school swimmers, Audrey dreams of college swimming stardom. But there's an obstacle to her glorious rise to the top. Her number-one supporter-her father-is in prison for murder. Part murder mystery, part tale of young love in a military family, this gripping story takes readers on a journey from Pensacola to Annapolis. Leo and Audrey must band together to rise above the adversity they encounter and find their true selves in the process. When everything's on the line . . . streamline.

A gripping, harrowing, and well thought out story with great characters and a mystery to boot!

By Christina (Ensnoced in Lit)

I was asked by the author to read and review this book. This does not bias my review.

Streamline by Jennifer Lane is not my typical YA read. I don't usually pick up contemporaries, but am totally not adverse to them especially when they are done well. Streamline focuses on Leon Scott, a high school guy who seems to have it all: he has the perfect girlfriend, he's a top swimmer and captain of his team, he is in great physical shape and effortlessly does well at school. However, his life has a dark side--his father is a military man and because of some life events and bad choices, has turned to abusing his family emotionally and physically. For the first half, we live through Leon's eyes, becoming a swimmer and going to his meets,

but also following him home, and watching the horrible abuse at his home. The next half shows Leon overcoming some difficulties at home and going to military school. All throughout this story winds a mystery-- his girlfriend's father is imprisoned for a murder-- but did he really murder anyone?

This book is a long one, and you have to be dedicated for the ride to come. But it's worth it. The first half may have seemed a little too long in the build up, but I did enjoy learning about being on a swimming team, what the practices are like, and so forth. I can see how people immersed in this world would really delight in this part. I wasn't sure how the story of Leon and his dad's conflicted relationship would go-- at some times, I wondered if it would end up being too trite. But the second half really made this book worth going the distance (no pun intended). Lane is a psychologist and it shows-- the moments between Leon and his psychologist were amazing. I felt like I was in the room getting therapy with Leon, seeing into his inner mind and watching him discover aspects to his own personality that he never understood. At the same time, I enjoyed watching the mystery finally unfolding and coming to a pounding climax. While I thought the characters were well thought out and three dimensional, even Leon's father, I sometimes thought there were too many of them. Also, the ending seemed almost too easy, where everything fit exactly in the right place and they lived happily ever after. Life is messy, and doesn't always work out the way we want it-- and that's okay, we learn and grow. I felt that this book wanted to say that, but in the end, may have taken the easy way out.

That said, I enjoyed the journey with these characters, loved learning about swimming, and particularly loved the scenes between Leon and the psychologist. I know this is Lane's first YA book, but she has great promise in this genre.

sweet story with a bit of mystery

By Amanda

I'm not even sure where to begin with this one. Streamline is such a heart tugging, sweet story with a bit of mystery.

Leo is a great kid but he carries the weight of the world on his shoulders. He's constantly worried about his family and his girlfriend. There's this great need in him to fix things for everyone. It's hard to see him go through some of the stuff he does. Especially with his father.

Audrey is a sweet and supportive girlfriend. She definitely has way more stress in her life than a teenager should. Between worrying about Leo and her own family, plus her swimming career, phew it's a lot.

Even though the story is about Leo and Audrey both, I feel like he is really the 'star' and that's ok with me. I don't normally connect with a teenage boy when I'm reading but I did with Leo.

Streamline is not an easy read. When I say that the reason is because there is physical, mental, and drug abuse, teen pregnancy, suicide. It's a lot to take in and I had to read it in starts and stops until I made it to the middle of the book. At that point things started moving so fast I didn't want to stop. I had to know what would happen next.

If I had to say there was one thing I didn't like about Streamline it would that at the end of the book I'd have liked a look at everyone in the future. But really, that is such a small thing in the grand scheme of things. Streamline hit all of my 'feels' and I loved every word of it.

The Autumn Review for Streamline

By The Autumn Review

My Summary:

Leo Scott and Audrey Rose have been dating for two years. They met in school and are both accomplished swimmers on the swim team. They are both trying for college scholarships. The problem is that their family lives seem to keep getting in the way and creating massive stress. Both Leo and Audrey come from military families. Leo's father is physically abusive and Leo has always managed to keep that a secret. Then there's Audrey, who's father is in prison for a murder he doesn't remember. Leo and Audrey learn to rely on each other and their relationship becomes much stronger in the process. So many things happen to pose challenges for these two, but can they make it through to the finish in one piece?

My Take:

When I saw the cover of the book and the title, I'm not sure I even read the description before signing on. As a former swimmer and current swim coach, I knew I would have a connection to this book in some way. Boy was I right! I'm so glad that I signed on for this tour. Not only did I find a fantastic story, but it's always fun for me to chat with other people who have a passion for swimming. Grab your box of tissues though. This is an intense story.

There are so many things that I liked about this story, but I'm going to start with the swimming. I LOVED all of the swimming parts of the story. I felt the rush that they felt while racing, could picture exactly what they were doing, and of course am familiar with all the terminology. Even if you aren't a swimmer, you will still appreciate and follow along with that aspect of the story. Swimmers are very disciplined in their sport. Training can be intense, and YES, we do shave our whole bodies for big races. I loved the little details and that made me feel a part of their lives.

Now, moving on to the characters. I'm going to start with Audrey. I like her. She's a sweet girl with an air of naivety about her that I find endearing. She's very focused on school and swimming. I found a connection with her there. I love that she never gave up hope for her father and trusted her instincts. Audrey could have easily walked away from Leo on many different occasions, but she didn't. I admire the fact that a girl that young could find the tenacity to stand by him despite what was happening in her own life. That truly proved to me that she loved him deeply.

Leo...Leo...Leo. I really fell for Leo. To me, Streamline is Leo's story more than anything else. He is such a sweet guy and has a tremendous amount of determination to succeed. The problem was, he did it for his father instead of for himself. Until he finally started to break through that mold, he was stuck. URGH... his father, CS, is terrible. His nick names were well deserved. Yes, Leo was a good student; yes, he was a fantastic swimmer; yes, he had a great girlfriend. I'm just not sure he could really enjoy those things in his life though, while he was under his dad's thumb. I really don't want to reveal anything from the story, but man oh man this kid has been through a ton in his life. The amount of pressure his father put on his shoulders, was literally unbearable for Leo. He turned to outside resources to cope and to manage his literal pain. What I admire though, is that in every difficult situation, he found a way out; whether it was through his own resources or through the help of others. Lastly, I adore the way he loves Audrey. Their relationship was so sweet.

Clearly you can see that I developed quite a connection to this story and these characters. Here's what I will tell you though. This book was extremely difficult for me to read. I had to put it down and walk away from it on more than one occasion. The reason being, there are very serious issues and situations that are discussed. From addiction to abuse, the whole track has been run. It's a long story too, so breaks were needed to get through it and keep myself from turning into a slobbery mess. Am I glad I read it? Absolutely. Would I recommend this book to others? Absolutely. Would I re-read it? I don't think my heart could handle it. I did

enjoy the writing style and the flow was smooth. There were a few parts to the story that I wasn't sure needed to be in place, but that's just my opinion.

My overall/final thoughts are that this is a truly touching story. It's more than I expected it to be. Even though there is a romantic relationship in the story, I didn't feel that that was what the story was about. So, I would say pick this book if you are looking for an amazing story of self discovery, personal triumph, justice, a little mystery, and a touch of romance. Really...truly...a remarkable read.
