It seems so simple, do you want to be successful? I can't imagine why anyone would answer no to that question, but this book taught me that every day were doing, saying, or thinking things that are causing us to do just that. It's inspiring and personal, making it completely relatable to people from all walks of life. It exudes motivation and positivity..sometimes as humans all we need is that extra push. This book is that. It's exercise for your soul! I felt like the author was talking directly to me the entire time, it can vastly change your mindset.
