Another Gorgeous Star Wars Art Of Book

By benjamin bannister

I bought this to finish my trio of Art of Star Wars prequel books. I bought this, along with The Art of Star Wars, Episode I - The Phantom Menace, and The Art of Star Wars, Episode II - Attack of the Clones].

This was the final George Lucas Star Wars movie, and with it comes some of the best artwork yet. Revenge of the Sith brought us General Grievous (and its infinite toylines), the Battle over Coruscant, and the duel on Mustafar as some of the exciting scenes brought to life. And it all started with concept art, the kind you find in these Art Of books. Some of the best conceptual artists have brought their ideas to life in this book, and it must have been difficult for George Lucas to pick what would eventually end up on the silver screen.

I love and appreciate the sketches and drawings and ideas that go into these Star Wars Art Of books. If you bought the other two, buy this to finish your collection. Recommended.

Illustrated Revenge of the Sith Screenplay

By Ross

Unlike the upcoming star wars episode this ones actually written by Lucas and is fully cannon which is cool, however I was disappointed that the illustration's were photograph's from the movie and not concept art like the other illustrated star wars screenplays.
