a new level of Twin Soul understanding.

I loved this book for broadening the parameters of what I thought a twin soul was as well as learning the tools for how to heal the void in the heart when you aren't currently walking your path with your other half.

In other words, truly creating wholeness in oneself whether your single or joined. Wonderful read for just about anyone and especially those trying to learn more about your soul's earth contract.

Good but it can be improved!!!

By ana

I liked because of the Light beings involved but I think the authors missed some points they could have reflected on or intuitively researched more. You feel like that book has no conclusion, the information flow suddenly was interrupted
