## About the Author

Lindsey Iler is the debut author of the Our Worlds series, the 1st book in the Our Worlds series. She's had her feet planted in the state of Michigan since she was born and she still lives there with her husband and three kids. When she's not writing (which should be all the time, so if she's not you have permission to yell at her), she's spending time with family and friends, listening to music, reading (obviously!), and hopefully just enjoying every moment in life. She has a twisted sense of humor, tends to speak honestly, and her mind tends to feel most comfortable in the gutter. Lindsey writes mature young adult/new adult contemporary romance. She falls in love with every character that pops into her head and is notorious for writing long chapters in her notes on her iPhone (It is sort embarrassing how many started/unfinished projects are on that thing). She finds inspiration from music and the people around her.

Love is complicated. Add in high school and it's bound to get worse.

Kennedy Conrad spent her summer hiding from the world, leaving her plenty of time to relive every moment spent with Graham Black. Now at the start of her senior year, she has one goal. Avoid the boy who broke her heart. He seems to be everywhere she turns.

Letting go isn't always the easiest thing to do.

Graham Black spent his summer parading around with nameless girls at endless parties. At the start of his senior year, he pretends to be okay with his choices and masks his pain, but Graham can't escape the reminder of his own broken heart. Every time he turns around, she's there.

Sometimes people come into your life for different reasons.

Someone new reminds Kennedy what she deserves, leaving Graham two choices: be pushed back into the shadows or fight for the only girl who's ever understood him.

Can they find their way back as their worlds fall apart?

**WHAT A WASTE OF TIME!!!**

By Susan.W

This book was worse than the first..I thought the point of a romance book was for the main characters to have a romance story together, Not spending the whole book apart with other people...THIS BOOK WAS POINTLESS!!!!!! Once again their was no connection between the characters..no passion, chemistry or romance...nada!!! I thought since I read the first book the characters would have matured and with not acted like Jr high kids with crush. the love each other but just never seem to find their way back together. Just

didn't work.. this book fell flat. This book would be good for teenagers or people who don't like romance in there books!!!

Boring and Very Slow Paced

By Book Nerd

I'll start off by saying I enjoyed the first book and was looking forward to reading the next installment of the story (which took forever come out). I hate to say it...but this book was definitely not worth the wait. It was so slow paced, boring, predictable, and unrealistic. Nothing really happens, no on the edge of my seat moments, definitely not a page turner. It was one giant yawn.

\*\*\*\*\*The following is a bit spoilery\*\*\*\*\*

I really hated Kennedy in this book. She ends up dating another guy and really uses him. She treats Mark so bad that I felt sorry for him the entire book. She gets mad about the stupidest stuff--like when he googled "rape victim" and she said that was like reading her diary. What? if anything that was a nice thing to do so he could be more knowledgeable and sympathetic to her situation. Kennedy pined after Graham the whole book, cheats on her boyfriend with him (just a kiss but still), and then she gets defensive when Mark isn't ok with how friendly she is with Graham. Why didn't she just break up with Mark sooner instead of stringing him along for almost a year? Her behavior was so selfish, uncaring, and rude.

Graham was a tool as usual. Parading many women in front of Kennedy and sleeping with multiple women right after he had broken up with her after her rape. Nice guy, right. Yuck. I can't stand him and was rooting for Mark the whole book but Kennedy was too stupid to see what a good thing she could have with a much nicer guy (Mark).

I found it cheesy and unrealistic that Kennedy would forgive Amanda, the girl who was horrible to her the year before AND who she caught Graham hooking up with the night she was raped, and become one of her best friends. Yeah right. that would never happen. Not in a million years.

I cant recommend this book because it was boring and I ended up hating the H and h.

Finally!!!

By jarnelle

Loved the book, I was literally waiting forever for this book to come out. Just like I said for the first book I really felt like I was there for the whole ride that involves Kennedy and Graham. At some points I wanted to smack them both, than I just wanted to hug them and tell them everything will be ok. I also appreciate the strength Kennedy had throughout the book, was so mature for her age. But the ending was nice but not what I wanted so really curious on how the third book will turn out. In the end if you loved the first book your going to fall harder in love with the second book. It was worth sitting through all my classes reading it instead of paying attention.
